Declaration and Consent

Privacy

✓ I have read the [Privacy Collection Statement](#) and acknowledge that personal information I provide in my submission may be used or published as part of the EIS process

Publishing

✓ I acknowledge that a copy of my submission may be published in its entirety on this website and/or a government website.

Personal Information

✓ Where personal information about other people (including photos) is included in my submission, I have notified them of the contents of this [Privacy Collection Statement](#) and obtained their consent to their personal information being disclosed and published

Intellectual Property

✓ I am entitled to deal with the intellectual property rights (including copyright) of all material (both mine and any third party's) in my submission and have obtained necessary consent(s) from any and all third parties owning the copyright for such dealings.

Representative Information

Are you making this submission on behalf of someone else and/or an organisation?

No

How would you like to make your submission?

- I would like to enter it into a textbox
- I would like to upload it as an attachment

Your Submission

It is inconceivable that the Federal Government approved a licence for the Star of the South offshore WF in March 2019 and 7 years later remains bogged down in EIS bureaucracy while the oil & gas offshore in the very same area sailed through unencumbered? The O&G operations often required major interventions on seabed, beach littoral zones and atmosphere with flaring (images attached). I worked on and off with the O&G in Bass Strait since 1988. The offshore wind farms are a timely and natural progression from this once profitable hydrocarbon province.

Apply the same rules to the OWF start-ups that allowed unfettered access to the O&G offshore and all SE Australians will benefit from this great renewable source that currently provides ~38GW of European power.
